### Release Notes (What's New)

#### [What's new in Parallels Plesk Panel 11.5?](#)

Please read the latest release notes:

- [Parallels Plesk Panel 11.5 for Linux based oses release notes](#)
- [Parallels Plesk Panel 11.5 for Windows based oses release notes](#)

Please find the complete product documentation [here](#)

### Download

After the installation is completed, you can log in to Parallels Panel with credentials of the system power user, which is "root" on Linux systems, and "Administrator" on Windows systems.

If you do not have the power user's credentials, obtain the Parallels Panel login details from your hosting provider. They typically send you an email with your username and password after installing Parallels Panel to your hosting account.

#### [Plesk Autoinstaller for Linux](#)

The screenshot shows the Parallels website interface. At the top left is the Parallels logo. To the right are navigation links: Store, My Account, Contact, Careers, English / USA, and a search bar. Below this is a red navigation bar with links for Products, Downloads, Support, Partners, Blogs, About Us, Stories, News, and Subscribe. The main content area is titled 'Download Parallels Plesk Panel' with a sub-header 'Latest Release: Version 11.5'. There are two orange buttons: 'Requirements' and 'Documentation'. Below this, there is a section for a 'FREE Trial License' with a link to 'click here'. A 'Release Notes (What's New)' section follows, with a link to 'What's new in Parallels Plesk Panel 11.5?'. Underneath, there are two RSS feed links for Linux and Windows based OSes release notes. A 'Download' section provides instructions on logging in to the panel with system power user credentials ('root' on Linux, 'Administrator' on Windows). It also mentions that users without these credentials should contact their hosting provider. Finally, there is a 'Plesk Autoinstaller for Linux' section listing supported OS versions: CentOS 5 (x86 & x64), CentOS 6 (x86 & x64), CloudLinux 5 (x86 & x64), and CloudLinux 6 (x86 & x64).
